## DIRECTOR'S MESSAGE

**Dr. Daniel Penkar (Director SBPIM)**

Being an upcoming institute, We at SBPIM have been able to achieve greater success in creating successful and employable students. Apart from syllabus, the innovative ideas of the staff help in developing programs for the students which are tailor made as per the needs of the students and the requirements of the corporate world.

We believe that the students should learn through self experience and hence implement programs which are for the students, by the students, of the students and guided by the institute.

In striving to give more to the student development, we have developed individual programs like mentorship and specialization oriented lectures. The industry exposure helps the students in updating them as per corporate requirements. We believe that the foundation of any education is research and expert faculties. A Number of faculty development programs are conducted and opportunities are given to them for research and industrial exposure, which help to bridge the gap between industry and academics.

I wish everyone success in their efforts towards excellence.
