Winner: Congratulation! Team Nicolaus - NMO S4 Winner – Amruta Chavan – Head Human Resource Management

Report

SBPIM students exhibited tremendous enthusiasm as they actively participated in the National Management Olympiad, an annual event tailored for both Management Students and Professionals, emphasizing the acquisition of essential management qualities. This Olympiad constitutes a comprehensive ecosystem involving management professionals and industries,

complete with virtual companies, positions, business scenarios crafted by industry experts, and real business cases from corporations and social ventures.

The fundamental objective of the National Management Olympiad is to identify and encourage the most promising management students and aspirants, aiming to bridge the gap between academic excellence and its practical implementation in the real-world management environment. The competition incorporates quizzes and business case scenarios, serving as a platform to assess participants' academic skills.

The National Management Olympiad has a far-reaching impact, set to engage thousands of management students and aspirants across India. Positioned as an online competition that transforms great ideas into reality, SBPIM, with a cohort of fifty five students, actively participated in the screening round, featuring quizzes designed to evaluate participants' academic prowess. One student emerged as finalists for the Business Case Scenarios (BCS), a segment crafted to assess participants' ability to implement academic knowledge in real-world scenarios. **Winner: Congratulation! Team Nicolaus - NMO S4 Winner – Amruta Chavan – Head Human Resource Management.** In recognition of their achievements, SBPIM has decided to felicitate Amruta Chavan by the hands of our director Dr. Kirti Dharwadkar in the Induction Program- Rhythm 2022.

The competition progressed with various business case scenarios presented to virtual companies, with solutions submitted online. These solutions were then published on the NMO Portal, available for voting and reviewing by industry experts, faculty members, judges, and registered participants. Virtual companies engaged in a fierce competition for exposure and maximum votes, with the points obtained through voting determining the ultimate winner. Throughout the event, virtual companies experienced reshuffling after each stage, providing an opportunity for the best-performing registered participants to shine.

The overall flow chart of the event includes sequential stages: Registrations, Qualifying Quiz, Main Quiz, Team Formation (Virtual Company), Quarter Final (5 Teams), Semi-Final (3 Teams), and the Grand Final (2 Teams).

The overall flow chart of the event includes

Registrations -> Qualifying quiz -> Main quiz -> Team formation (virtual company) -> Quarter final (5 Team) -> Semi-final (3 Teams) -> Final [2 Team]
