Educate students on “**Corporate Expectations from Budding Managers: Myths and Realities**” under Corporate to Campus PCET’s SBPIM has invited **Mr. Karan G Jaisinghani, Manager at WNS** on December 14, 2022.

Karan's discussion revolved around the industry's expectation from fresh graduates and business environmental changes have forced talent acquisition to be dramatically different in the new era of business landscape. He precisely explained that a lot of MBA graduates are inducted into organizations as Management Trainees, or at the lowest rung of management ladder. However moving up the ladder involves a lot of hard work and this is where the mismatch between expectations and realities happen. He also elaborated drivers like digital transformation in business has further fueled this change. Key take away from his session in nutshell, an individual's holistic development does not just include subject knowledge. The emphasis is on their overall personal development. Students were delighted with his knowledge sharing during the session.
