Name of the Student Coordinator: - Ms. Shweta Kulkarni

Number of Students Participated: - 117

Brief Information of the Event: -

A session on “5 Ways to be a Change maker” was conducted under the guidance of Dr. Amarish Padma to make students aware how they can be Social Entrepreneur and achieve SDG (Sustainable Development Goals).

The session was hosted by Ms. Shweta Kulkarni from 2nd Year MBA who introduced the topic of the session & gave brief introduction of the guest speaker Ms. Shweta Kulkarni.

“Ever seen a bird or squirrel swipe a credit card for food? Or an animal pay for clothes? Only humans pay for our existence on this planet. The reason many (might) give is advancement. But what kind of advancement is this?” laments Prasiddhi Singh, a nine-year-old environmentalist whose efforts to create a greener planet start with a call to action. Prasiddhi speaks about plausible solutions to climate change that she began by nurturing numerous fruit forests. Today, her initiatives and NGO have won many accolades and awards. The youngest recipient of the Pradhan Mantri Rashtriya Bal Puraskar 2021, her intrinsic connect with nature is remarkable.

The eco-warrior from Tamil Nadu who began her “green activist” journey at just four, has 19 fruit forests to her credit, and is now on a mission to plant 1 lakh trees by 2022. “Each of us can make a significant contribution. But we need to try to create change. I have been close to nature since I was two, and I always knew that I had to do something for the planet,” Prasiddhi

She made a point and informed in details what the 5 ways to be a Change Maker are

1. Be Inspired
2. Get Informed
3. Discover
4. Be Brave and Act
5. Mobilize

She motivated students who were little doubtful about this topic. The session towards the end had a Q & A session which was filled with a lot of questions by the attendees and in-depth answers by Prasiddhi. The session concluded with the vote of thanks by our host Ms. Shweta Kulkarni.
