Brief Report of the Event:-

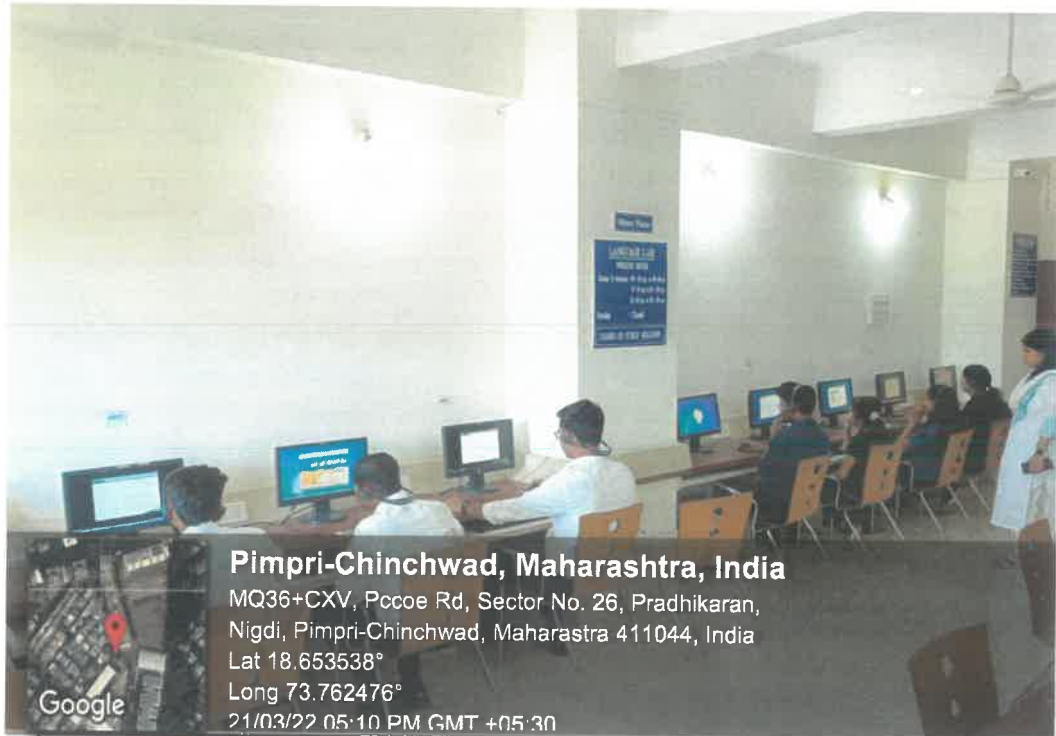

We have successfully integrated the Language Lab software from Globarena Technologies Private Limited into Computer Lab-2 for MBA – I and II year students. The software's primary goal is to elevate students' English language proficiency through a variety of interactive exercises and modules. It focuses on pronunciation, practical training, and the relevance of English in technical contexts. Students engage in interview preparation, conversation practice, and discussion training using the software. Its user-friendly interface and personalized feedback mechanisms enhance learning outcomes. The inclusion of multimedia resources like audio clips and videos enriches the learning experience. Students exhibit heightened confidence and proficiency in English following software utilization. Continuous support and training for both students and faculty are recommended to sustain effectiveness. Expanding modules and enhancing features to accommodate diverse learning needs are suggested. The acquisition of the Language Lab software significantly enhances students' linguistic competence and overall learning journey.
