**Report:**

Under program of Forests by Heartfulness : Primary goal is to plant at-least 30 million native and endemic trees across India by 2025.

In order to achieve this goal, a team of forestry, agro-forestry and climate experts are guiding the project and will continue to do so for the next 5 years. Under their guidance, as a first step, nurseries are being developed in 18 cities across the country.

Saplings of carefully selected tree and plant species are raised in these nurseries during non-plantation season every year between October & May.

Mass plantation of these saplings takes place every year between June – September (monsoon) and Jan – Feb (late winter). This will be carried out by the Heartfulness volunteers, farmers, NGOs, school children and general public. Planted saplings will be effectively monitored and nurtured by providing optimum conditions for growth to ensure high survival rate.

FBH has already conducted a successful mass plantation drive in the year 2019 covering 64 cities – 64,000 trees – in one day through its volunteers and its partnering organizations

Heartfulness which is a global non-profit organization mainly into meditation has come up with its new initiative of tree plantation. Indian breed plants are ready for plantations with us. You may pick any of it to plant in your college. Saplings will be donated by Heartfulness to all interested participants. Along with plantation participants will also get an opportunity to learn Heartfulness meditation which is offered free for all worldwide. You give us space, we give you plants.

We have following herbal/medicinal plants: After checking the space we can accommodate five saplings in the PCET'S SBPIM campus. Kindly arrange the sapling of these Bel, Shirish, Karanja, Saag, Amla. Followed by meditation session.
