Mentorship Programme 
Planting seeds for Success

End Report-2023-24

A mentor is someone who sees more talent and ability within you, than you see in yourself, and helps bring it out of you.” — Bob Proctor

A mentor offers guidance, technical expertise, support, empathy, and respect both during and frequently after a person's career. Through mentoring, students can better comprehend how their goals relate to their education, college experience, and job options. A successful mentoring relationship takes time to establish. The mentor's expertise, knowledge, coaching, and support are advantageous to the learner. Later on, the two individuals strengthen their professional bond and might even work together on different facets of life. The mentee may eventually require some time apart from the mentor in order to test out their own theories. This distance indicates that the mentor-mentee connection is developing and giving the mentee the tools they need to live on their own. Lastly, the mentor and mentee may decide to reinterpret their partnership as one.

The Mentorship Program 2023-24 at S. B. Patil Institute of Management emphasizes the mentor-mentee relationship ideology. The general growth of students is the main goal of the mentoring program. The blending of academic learning programs with the more general concerns of personal growth and progress is known as student development in higher education. It's a holistic, student-centered program that emphasizes developing skills, gaining knowledge, and comprehending (and exhibiting) values. In addition to being prepared for professional success, the student needs to be raised to be a responsible member of the community. In order to fine-tune their personality, students need receive guidance on values, ethics, soft skills, and behavioral elements.

The program focuses on the ideology, which is as under –

Mentor - Mentee Meetings

- Self Awareness and self development

MENTORSHIP
PROGRAM

“We cannot always build the future for our youth, but we can build our youth for the future.”

Like every year, Mentorship Program 2023-24 started with the Induction and Ice breaking of the program wherein the mentees were allotted to the mentors. The mentoring meetings are conducted at every month end on a regular basis. The mentors during the mentoring process came with the following conclusions –

1. Discussed the importance of mentorship program, the idea that there is someone in the campus to whom you can open up.
2. Attendance monitoring and discussion related to attendance.
3. Gave them the details about choosing specialization in second semester.
4. Tried to pacify the anxiety of the students towards exams by making them realize the importance of making a study time table.
5. Even for submission of CCE suggested them to make a schedule.
6. Preparing for interviews, and applying for jobs.
7. Discuss anything other than academics with the will and wish of the mentee.

- This academic year, the mentorship program was outlined and carried out in brief. It consisted of four stages of mentorship activities, with the senior faculty members acting as Super Mentors, or mentors to the mentors, and their duty being to advise and assist the mentors when

necessary.

The students gave the Mentorship Program 2023-24 an excellent rating overall. By the time the program ended, the mentees and mentors developed a close relationship.

S.B. Patil Institute of Management students shines

Achievers 2023-2024

2023-2024: Students have actively engaged in both state and national management-level competitions, showcasing their talents and skills on various platforms. We are delighted to announce that our students have achieved remarkable success, securing prizes in the form of trophies, medals, and cash rewards. This achievement reflects not only their dedication and hard work but also the invaluable mentorship provided by Dr. Kajal Maheshwari and Dr. Amarish Padma. Under their guidance, our students not only clinched victories but also established their mark in the field. None of this would have been possible without the visionary leadership and steadfast guidance of our Director, Dr. Kirti Dharwadkar.
