Introduction

- The *International Monetary Fund (IMF)* is an international organization headquartered in [Washington, D.C.](#), of "189 countries working to foster global monetary cooperation, secure financial stability, facilitate international trade, promote high employment and sustainable economic growth, and reduce poverty around the world."

Special Drawing Right (SDRs)

- **SDR is an invented currency**
 - Its value is based on the worth of the world's five major currencies
 - US Dollar, French Franc, Pound Sterling, Japanese Yen, Deutsche Mark
- **Countries add SDRs to their holdings of foreign currencies**
 - Keep available for need of payments that must be made in foreign exchange

The SDR is defined as a composite of five currencies—the Dollar, Mark, Franc, Yen and Pound. The SDRs are allocated to the member countries in proportion to their quota subscriptions. Only the IMF members can participate in SDR facility.

Establishment of IMF

IMF was founded on 27th december, 1945. During the closing years of World War Second, different countries realized that there must be a common International Forum for achieving economy cooperation, promoting International Trade and providing help to needy nations during emergency. So IMF was formed for this purpose.
