6.2 Maintenance of Research Integrity and Plagiarism

SBPIM is committed to prevent the plagiarism in the academic research work. At present, prevention and detection of Plagiarism has been enforced exclusively to Ph.D. Research Work.

6.2.1 Ph.D. Research Work:

For Ph.D. Research work the Savitribai Phule Pune University has laid the guidelines for Plagiarism. The Oxford Dictionary defines plagiarism as “the practice of taking someone else’s work or ideas and passing them

off as one's own". Plagiarism is the deliberate or unintentional copying of ideas, text, data without the due permission and acknowledgement of author. Though the degree of severity can vary, plagiarism always amounts to ethical misconduct and requires redressal. The use of someone else's work in one's own is not by itself unethical. A limited amount of textual material in someone else's paper can be copied if it is clearly marked as a quote (typically by enclosing it within quotation marks) and the source is explicitly cited where the quote starts or ends. Alternatively, text may be paraphrased with a general indication of where the concepts originated. Occasional re-ordering or substituting of words is not sufficient to count as paraphrasing: the recommended procedure is to read and understand the source material, then put it away and express the idea in one's own words. Besides textual material, the incorporation of ideas, figures, graphs etc. from other sources in a manner that conveys a false impression that they are original amounts to plagiarism. Taking one's own published results and reproducing them in another work as if they were new is "self-plagiarism". "Duplicate publication" – submitting the same research results to two or more journals and treating them as separate publications – is also a form of self-plagiarism and must be avoided.

SBPIM is committed to prevent the plagiarism in the academic research work. At present SBPIM has mechanism for the detection and prevention of Plagiarism by establishing Research Committee. As per prescribed rule and regulations of Savitribai Phule Pune University, the Plagiarism percentage should be below 10 percent and SBPIM follows the SPPU Guideline. The final Ph.D. Thesis work plagiarism is checked through the software recommended by Savitribai Phule Pune University. SBPIM has the access of iThenticate and Turnitin to check the plagiarism of the Ph.D. research work.

In SBPIM plagiarism would be quantified into following levels of severity for the purpose of its definition:

Similarities up to 10% - excluded

Level 1: Similarities above 10% to 20 %

Level 2: Similarities above 21% to 30 %

Level 3: Similarities above 31% to 40 %

Level 4: Similarity above 40 %

6.2.2 Penalties for Students

The Director will appoint a standing Committee on such issues, based on recommendations of the committee, penalty will be imposed by considering the severity of the Plagiarism.

Level 1: Similarities above 11 to 20% - Such student will be asked to submit a revised script within a stipulated time period not exceeding 1 month.

Level 2: Similarities above 21% to 30% - Such student will be asked to submit a revised script after a time period of six months but not exceeding one year.

Level 3: Similarities above 30% to 40% - Such student will be asked to submit a revised script after a time period of one year but not exceeding eighteen months.

Level 4: Such student registration for that Ph.D. course will be cancelled.
